Why Hiscox

When it comes to business insurance, Hiscox's specialist knowledge ensures the cover it designs is flexible and reflects the specific risks of the particular industry.

More than a standard insurance policy

That's because we take the time to ensure our policies are comprehensive in the first place. So if you do have to make a claim, we'll start by assuming it's valid – rather than looking for a loophole.

Additional value for your business

We understand the value of keeping things simple. That's why we offer a single policy, incorporating only the cover modules your business needs. Our flexible payment options include interest-free direct debit.

Continuous policy cover

So there is no need for a time-consuming renewal process every year.
